

The WULUW (*Women's Utility Leadership in Urban WASH*) Initiative supports ROCKBlue's commitment in promoting a path to self-reliance for its partner service providers, and aids in giving back to the urban WASH sector. This initiative aims to promote and support female leadership in urban WASH, by fostering personal growth; increase female involvement in decision-making; and integrate gender equality and social inclusion into policies, planning, and budgeting within WASH utilities and municipalities.

WULUW'S GOALS

WILL BE ACCOMPLISHED THROUGH
FOUR KEY ACTIVITIES:

ONE

Collecting and sharing informative and motivational stories about female leaders in urban WASH

TWO

Enabling mentorship between existing female leaders and aspiring female leaders

THREE

Providing professional career guidance and networking opportunities for aspiring female leaders

FOUR

Connecting aspiring female leaders with educational opportunities and resources
